

custom airbrush tanning at tanworld

At tanworld we provide the ultimate custom spray tan while keeping the look and health of your skin our number one priority. We specialize in hiding wrinkles, acne, varicose veins, and cellulite through our superior spray tanning techniques using organic solution that is among the best in the world. Our unique solution boasts ingredients such as ginseng and rosemary and is Aloe-Vera enriched, has anti-aging botanicals, vitamin E and antioxidants.

At tanworld it's simple, we are just like you. We know beautifully bronzed skin gets noticed and it makes us look and feel our best. If you want your tan to look natural... with no harsh chemicals, orange color or lingering smells; we are the perfect fit. If you have high standards...and demand perfect color, flawless application, and consistent results, you are our favorite customer.

In today's society a perfectly bronzed body is the ultimate accessory. A custom spray tan gives you a thinner, younger appearance and provides a healthy glow. tanworld would like to help you achieve your best look possible.

Welcome to tanworld...Enjoy Your Gorgeous Glow!

Spray Tanning

Spray Tanning with tanworld allows you to achieve the level of darkness you would like in one application. Tans are customized to the shade you prefer.

pre-tan skin care

- Shower, Shave & Exfoliate
- Do not apply body or face moisturizer
- Schedule hair/spa treatments & workouts prior to tanning appointment
- Wear loose fitting dark clothing.

While spray tanning, please wear what you feel most comfortable in. The majority of sunless tanners wear disposable underwear (provided by us) or a bathing suit. Your spray tanning session will last about 25 minutes; while your actual spray tan will last between 7 to 14 days. All services are done in privacy and with complete confidentiality.

post-tan skin care

- Remain dry for 12-16 hours
- Take short, warm showers using mild, non-scented soap; shaving with a light touch
- Pat skin dry and moisturize with a mild lotion or tan enhancer
- Apply perfume to clothes and hair avoiding skin contact
You may feel slightly damp during the hour following your spray tan, however you may go about your daily routine. Stay dry and avoid touching your skin, as you want your tan to dry fl awlessly. You will notice your tan darkening over the next 12-16 hours. After this time, shower lightly allowing the cosmetic tan to wash off...baring your beautiful, dark, golden glow. Limit exposure to pools and hot tubs as this may fade your tan. Our solution is water soluble and will wash out of lothes and sheets. Natural based color from a Science based company!

your science based company
